👨‍💻 Summary

Detail-oriented and systems-minded graduate with strong interests in finance, technology, and automation. I combine careful, high-accuracy work with practical problem-solving whether it's streamlining workflows, building tools, or communicating analysis to stakeholders. Seeking a role across Finance, Risk and Advisory.

💼 Experience

Assistant Accountant

Sep '2024 - Present

VHL Partners, Victoria, Australia

- ▶ Owned end-to-end BAS preparation for **20+** clients per quarter using Xero/QBO.
- ▶ Built an **Excel-based GST** reconciliation model to cross-check GST results and catch discrepancies pre-lodgement.
- ▶ Oversaw delivery for a multi-entity client, finalising all year-end financials under deadline pressure.
- ▶ Onboarded **3 new hires** into team workflows and quality expectations, walking them through processes/tools and acting as a go-to for questions.
- ▶ Designed and delivered an **online presentation** on rental property tax consequences to 8 real estate agents, giving practical guidance.

🎓 Education

B.Com Hons. (Actuarial Studies, Finance)

2023 - 2026

University of Melbourne

- ▶ Sponsorship Director for HackMelbourne [2024]
 - ▶ Secured 3+ sponsorships and partnerships by drafting compelling prospectuses
 - ▶ Managed team workload and deadlines, mentoring a 4-person sub-team
- ▶ RECS team member [2023-2024]
 - ▶ Coordinate development efforts with the software team for robot localisation
- ▶ URT software team member [2024]
 - ▶ Coordinate with the autonomous team to complete the autonomous module

💻 Projects

Lynk (piano.bazza.space)

- ▶ A node-based tool for linking objects to concepts.
- ▶ Lynk enables users to organize and visualize relationships between different entities through an interactive node-based interface.
- ▶ Written with the help of Claude.ai

Pianos @ Unimelb

2024

piano.bazza.space

- ▶ Created piano.bazza.space, a web app mapping campus pianos to assist with people who want to locate pianos on campus
